

Victor M. Iglesias

AI solutions builder: I ship AI tools and get people using them

Miami, FL · (786) 393-0996 · victoriglesiascs@gmail.com

v2.studio (portfolio) · github.com/victorv2i · linkedin.com/in/victoriglesiascs

I design and ship AI tools with coding agents like Claude Code and Codex. One is an open-source Civil 3D starter that a civil engineer used at work; another is a public benchmark of AI models that I score by hand. Seven years at FIU Online taught me the other half of the job: getting busy people to adopt new tools.

AI PROJECTS

Civil 3D AI Starter

github.com/victorv2i/civil3d-ai-starter

An engineer describes a Civil 3D command in plain English, and an AI coding agent writes the C# and loads it into Civil 3D without a restart. A civil engineer used it at work to build label and geometry tools.

vbench

v2.studio/vbench

A public benchmark of AI models: same brief and one try per model, scored by hand against a published rubric.

Enfold and Enkeep

github.com/victorv2i

Open-source MCP tools: shared memory for AI agents that keeps every fact's source, and a Markdown editor whose notes stay plain files.

Also shipped with AI coding agents

coursekit.tools · gamedeck.gg

CourseKit, free Canvas course-review tools that run in the browser, and GameDeck, a live app for tracking and sharing game libraries.

EXPERIENCE

Florida International University (FIU Online)

Miami, Florida

Instructional Design Consultant

March 2026–present

Instructional Design Specialist

September 2021–March 2026

Course Developer

March 2019–September 2021

- Design and review Canvas courses with faculty. Contributed to 20+ courses that earned Quality Matters certification, and supported as many as 100 courses a term in earlier roles.
- Ran onboarding for new instructional designers (2021 to 2024) and live faculty workshops. Spoke at FIU Online Expo 2026 and ID Expo 2025.

EDUCATION

M.S., Data Science and Artificial Intelligence · Florida International University · in progress

M.S., Cybersecurity · Florida International University · 2023

B.S., Information Technology · Florida International University · 2019

SKILLS

AI: Claude Code, Codex, Cursor, MCP, agent workflows, prompt and context design, evaluating model output

Built with AI agents: TypeScript, Python, C# and .NET, React, Next.js, Electron, PostgreSQL, Playwright, Git, CI/CD

Enablement: onboarding, workshops, job aids, Canvas LMS, LTI 1.3, Quality Matters Peer Reviewer
